Mimi Brown

Inspiring Intentional Success

Audiences come to hear speaker Mimi Brown to be inspired and informed; they leave with power over their lives, their businesses, and beyond!

Drawing on over 10 years of leadership development consulting, Mimi captivates audiences with stories, analogies, and anecdotes that drive action. Her knack for connection makes people feel like they are the only one she is talking to – even in large groups. As a result, **business professionals and teens alike learn how to envision and manifest the successes they desire.**

Mimi brings her transformational message to corporations, associations, universities, and high schools that want to create intentional success. She also addresses audiences who think they don't have voice, often teens and women, and shares the keys to standing behind what you believe in, even when it's not popular. **One thing all Mimi's audiences have in common is that they leave with actionable strategies to ignite and activate their visions be, do, and have anything they want!**

"Her enthusiasm for the material and instructing are almost tangible! Being vulnerable enough to share pieces of herself make her VERY relatable and real!"

- Erika Lindsey, Lead Without Apology participant
